Experience & Projects

○ Airbnb Clone

Capstone Project

Jun 2024 - Jul 2024

Technologies used: HTML, CSS, JS, React, Node.js, MongoDB, Github

Built an AirBnB clone using ReactJS.

Created a homepage with a filter for selecting locations and added a login for user authentication.

Created pages for individual locations and included a cost calculator for estimating reservation cost.

Implemented reservation functionality to simulate booking a stay.

○ Amazon Clone

Capstone Project

March 2024

Technologies used: HTML, CSS, JS, React, Node.js, MongoDB, Github, Firebase

Built an amazon clone with functional login, checkout and payment components.

Integrated Stripe payments using Stripe API.

Developed a user authentication system using Firebase.

○ Tic Tac Toe

Class Project

April 2024

Technologies used: HTML, CSS, JS, React, Node.js, MongoDB, Github

Build Tic Tac Toe Game using React and Redux.

Add a music player to the game for extra entertainment.

Deployed project on Netlify and can be played here.
